

Dear Brown School Community,

Thank you for offering to support with some of the families in our communities.

The family consists of a mother and four daughters, ages 20, 16, 14 and 10. The eldest daughter is responsible for supporting the family financially and is struggling to make ends meet. Mother wants her children to have a good life, feeling happy and safe, and does her best to help to meet their needs. Despite their financial hardship, the family is a loving one that enjoys spending time together and are always making each other laugh. The family is in strong need of basics, including clothing, shoes and grocery cards. They also do not have a lot of furniture and bedding in the home and are sharing what little they do have. They love to spend time together as a family and would love the opportunity to do things outside if possible. The family is incredibly grateful for any generosity they may receive.
